

ETON SCHOLARSHIPS

& MUSIC SCHOLARSHIPS — 2010/2011

Junior Scholarships are awarded to boys of high academic promise who would benefit from the opportunity of attending Eton College, Windsor and who could contribute to the academic and general life of the School. Applicants may be attending a maintained school in the UK and must have attended such a school for at least the last three years. Up to five Junior Scholarships are awarded each year, the exact number depending on the quality of the applicants.

The Junior Scholarship Examination is held at Eton in January or February. Candidates must be over 10 and under 11 on 1st September of the calendar year of the examination. Such boys are usually in Year 5 in their present school at the time of the examination. Entries are accepted by the School Office Manager until three weeks before the examination: there are no other preliminary registration formalities.

Sixth Form Scholarships are awarded annually. One of these may be awarded to a boy of outstanding musical ability. The Scholarships are tenable for two years, during which their holders study three or more subjects to A-level. Most are awarded to boys at maintained schools, but deserving applications from boys at fee-charging schools in the United Kingdom may also be considered. If you will be under 16 on 1st September at the start of your main GCSE year, you are eligible to apply for one of these Scholarships; you should be expecting very good grades at GCSE.

Boys awarded Junior Scholarships spend two or three years at a preparatory school before taking up their guaranteed places at Eton. The prep school is chosen by the parents after consultation with the Head Master of Eton: it may be a day school or a boarding school, whichever seems more suitable.

We will cover in whole or in part the fees and may assist with other educational expenses, including school uniform, both at preparatory school and at Eton itself. Parents will be asked to contribute what seems reasonable after an assessment of their financial situation.
